

## JORDAN Eikona 2 Bookshelf Reflex enclosure

This 7.8 litre reflex enclosure for the Eikona 2 is tuned to 50Hz and has a -3dB point of 57Hz. It gives a good balance of fast, maximum flat bass response with minimum enclosure size.

It is possible to adjust bass output by connecting a 2 ohm resistor in series with the + terminal and give a flatter response when the loudspeaker is away from walls.
